

Aegis Series-7 HCS — Instrumentation Wiring Diagram (AEG-DWG-W03)

Terminal block and connector references are local to this drawing.

Note: the field device wired at Connector J-14 / Terminal Block TB-7 is the HPU discharge pressure transducer described elsewhere as PS-04A (see Component Register AEG-CR-700). This drawing uses the wiring designation only and does not repeat the AEG-CR-700 component ID.
